Professional Summary

Game Design student with hands-on experience developing and testing gameplay systems in Unity using C#. Skilled in technical game design, gameplay mechanics, systems documentation, playtesting, debugging, and technical QA, with experience contributing to 2D, 3D, and mobile projects. Familiar with gameplay programming, performance optimization, and collaborative development workflows using Git and GitHub.

Technical Skills

Game Engine: Unity (2D/3D)

Programming: C#

Game Design: Gameplay Systems, GDD Documentation, GSB Documentation, Gameplay Balancing, Playtesting, Systems Design

Gameplay Development: Modular Architecture, Procedural Systems, Performance Optimization

Technical QA: Playtesting, Bug Reporting, Functional Testing, Debugging, Regression Testing

Tools: Git, GitHub, ClickUp, Clockify

Projects

Forsaken Rules

Gameplay Programmer / Technical Game Designer

Sep 2025 – Jul 2026

3D Isometric Roguelike — Published on Steam

- Developed core gameplay systems and reusable mechanics in Unity using C#.
- Designed modular systems that improved maintainability and reduced dependencies.
- Conducted continuous technical playtesting, identifying and resolving gameplay issues before release.
- Collaborated using Git/GitHub within a multidisciplinary development team.
- Contributed to gameplay stability and runtime performance optimization.

Eden 404

Gameplay Programmer / Technical Designer

Mar 2025 – Jul 2025

3D First-Person Shooter

- Implemented gameplay mechanics and player interaction systems.
- Solved technical issues affecting gameplay stability and performance.
- Optimized procedural systems to improve runtime efficiency.
- Worked collaboratively using Git/GitHub.

Franklin's Journey

Gameplay Programmer

Sep 2025 – Nov 2025

2D Bullet Hell (Android)

- Developed an efficient projectile management system for large-scale bullet spawning.
- Optimized gameplay performance for Android devices.
- Performed functional testing and technical validation to ensure a stable mobile build.

Education

Game Design and Digital Entertainment

Toulouse Lautrec | 2023 – Present

Expected Graduation: December 2026

Recognition

Certificate of Contribution

Tourism Care Civil Association

Recognized for contributing gameplay systems to the educational project "*Guardianes del Humedal*" Virtual World.
